

Hari Baskar K

Full Stack Developer

Results-oriented Software Developer with 2 years of experience for crafting user-friendly mobile and web applications. Proficient in Flutter, Dart, and full-stack technologies, with practical experience in SaaS, eCommerce, and EdTech projects. I believe great software goes beyond functionality it should be scalable, intuitive, and solve real-world challenges. Skilled in leveraging AI, APIs, and cloud technologies to deliver cutting-edge solutions. Excited to grow with teams that value innovation and impact.

Skills

Programming

- Python, java, Dart

Backend

- Fast Api, Postgres, Mongo DB, Restful APIs,

Frontend

- Flutter

Cloud

- Firebase , Aws

Tools Expertise

- Android Studio
- VS Code
- Git & GitHub
- Pg admin
- Postman
- MongoDB Compass
- Figma
- Terminal / Command Line (Bash, Zsh)
- CI/CD tools (GitHub Actions)

Achievements

• HACK-A-BIT 2022 FINALIST

Was selected as one of the 50 finalists out of more than a 1000 participants from across the country in East India's largest hackathon.

HACKATHON

SOFTWARE DEVELOPMENT

TEAM WORK

Work Experience

○ Jan 2026 - June 2026 - intern

Dotwings Software Solutions | Pollachi , India

Full Stack Developer

Key Responsibilities

- Developed and maintained production Flutter applications.
- Refactored existing applications using **Clean Architecture and Feature-First Architecture principles**.
- Migrated application state management from **BLoC to Riverpod**.
- Developed responsive mobile and tablet interfaces using Flutter.
- Integrated Firebase services including Analytics, Crashlytics, and Performance Monitoring.
- Implemented **Deferred Deep Linking** for Android and iOS applications.
- Developed and maintained REST API integrations.
- Built real-time communication features using Socket connections.
- Diagnosed, debugged, and resolved production issues and application bugs.
- Collaborated with cross-functional teams to deliver new features and enhancements.
- Improved code quality, maintainability, and application performance.
- Collaborated in Agile sprint planning, development, and deployment cycles.

○ Feb 2025 - July 2025 - intern

Vidhaan Educare Pvt. Ltd | Chennai , India

Full Stack Developer (EdTech)

Key responsibilities:

- Built **full-stack SaaS software for schools**, covering user onboarding, admin dashboards, and student management
- Participated in **front-end UI design** using **flutter** and **backend feature** implementation
- Collaborated in **sprint-based cycle**, contributed to testing and documentation

○ Nov 2024 - Dec 2024 -Intern

El Datos Technologies Pvt. Ltd | Chennai , India

App Developer

Key responsibilities:

- Developed a platform **connecting students with mentors** for guidance and skill development.
- Features included mentor **search, booking sessions, and chat for real-time communication**.
- Implemented user-friendly UI with Flutter and reusable components for smooth experience.

- **B.Tech in Information Technology**
Sri Sairam Engineering College, Chennai
📅 09/2021- 04/2025 🎓 CGPA: 7.78/10

Finzo (Smart Money Tracker)

Flutter, Firebase, SQLite, Gemini Flash API
Playstore

- Built a personal finance application that automatically extracts and categorizes financial transactions from SMS and notifications.
- Developed a transaction recognition pipeline using Regex-based validation with Gemini Flash API fallback for complex SMS parsing.
- Implemented automatic detection of **bank name, payment method, amount**, category, subcategory, date, and time from transaction messages.
- Added transaction management features including editing, deletion, splitting, and custom categorization.
- Generated spending insights using charts and exportable PDF, Excel, and CSV reports.
- Utilized **SQLite** for fast local transaction processing and **caching**, while Firebase provided cloud synchronization and historical analytics.
- Designed a scalable architecture for handling large volumes of transaction records efficiently.

Freelance Projects

Medx | Medicine Delivery App

Features:

- Secure **payment gateway integration** for seamless transactions.
- Real-time order tracking with notifications and **estimated delivery times**.

Vendor Management App:

- Inventory management with **real-time stock updates**.
- Order processing and assignment to delivery personnel.
- **Payment tracking** and **reconciliation**.
- Communication channels with customers and **delivery personnel**.

IMPA B2B Kanchipuram (Freelance)

Features:

- B2B platform for businesses to place and manage bulk orders efficiently.
- **Real-time order tracking** and status updates for businesses.
- Interactive UI with reusable components for a smooth user experience.
- **Secure authentication** and **role-based access** for different business users.
